All NEW Stellar Drive Toolbox is a set of 14 must have software utilities to maintain, optimize, manage, & protect your Mac.

Recently Launched Products:

Stellar Outlook PST to MBOX Converter

Stellar Outlook PST to MBOX Converter provides an easy and secure way for email users to move out of PST and have their entire mailbox data converted safely to MBOX format. The software aims at facilitating PST to MBOX migration for providing you the benefit of versatility offered by the MBOX file format. This tool can safely convert Outlook data files to Thunderbird, Spicebird, SeaMonkey or Netscape mailbox (MBOX).

Product Features

- Securely converts Outlook mailboxes to MBOX files
- Facilitates conversion of password-protected PST files
- Provides preview of mailbox items in main interface
- Searches for PST files in the specified drive
- Supports Thunderbird, Spicebird, SeaMonkey, and Netscape
- Supports MS Office 2013, 2010, 2007, 2003
